

**Civil Service
Offshore Racing Club**

Treasurer's report 2020

Although the COVID pandemic led to the cancellation of most of our racing programme for 2020, we ran two events early in the year. These together with grant income from CSSA generated a net surplus of £2,437 taking the club's accumulated fund to £24,354, as shown in the accompanying accounts. Our plans to buy a club yacht were also put on hold and will be restarted as soon as COVID restrictions allow sports activities including yacht racing to resume.
